ABOUT HAIER COMMERCIAL REFRIGERATION

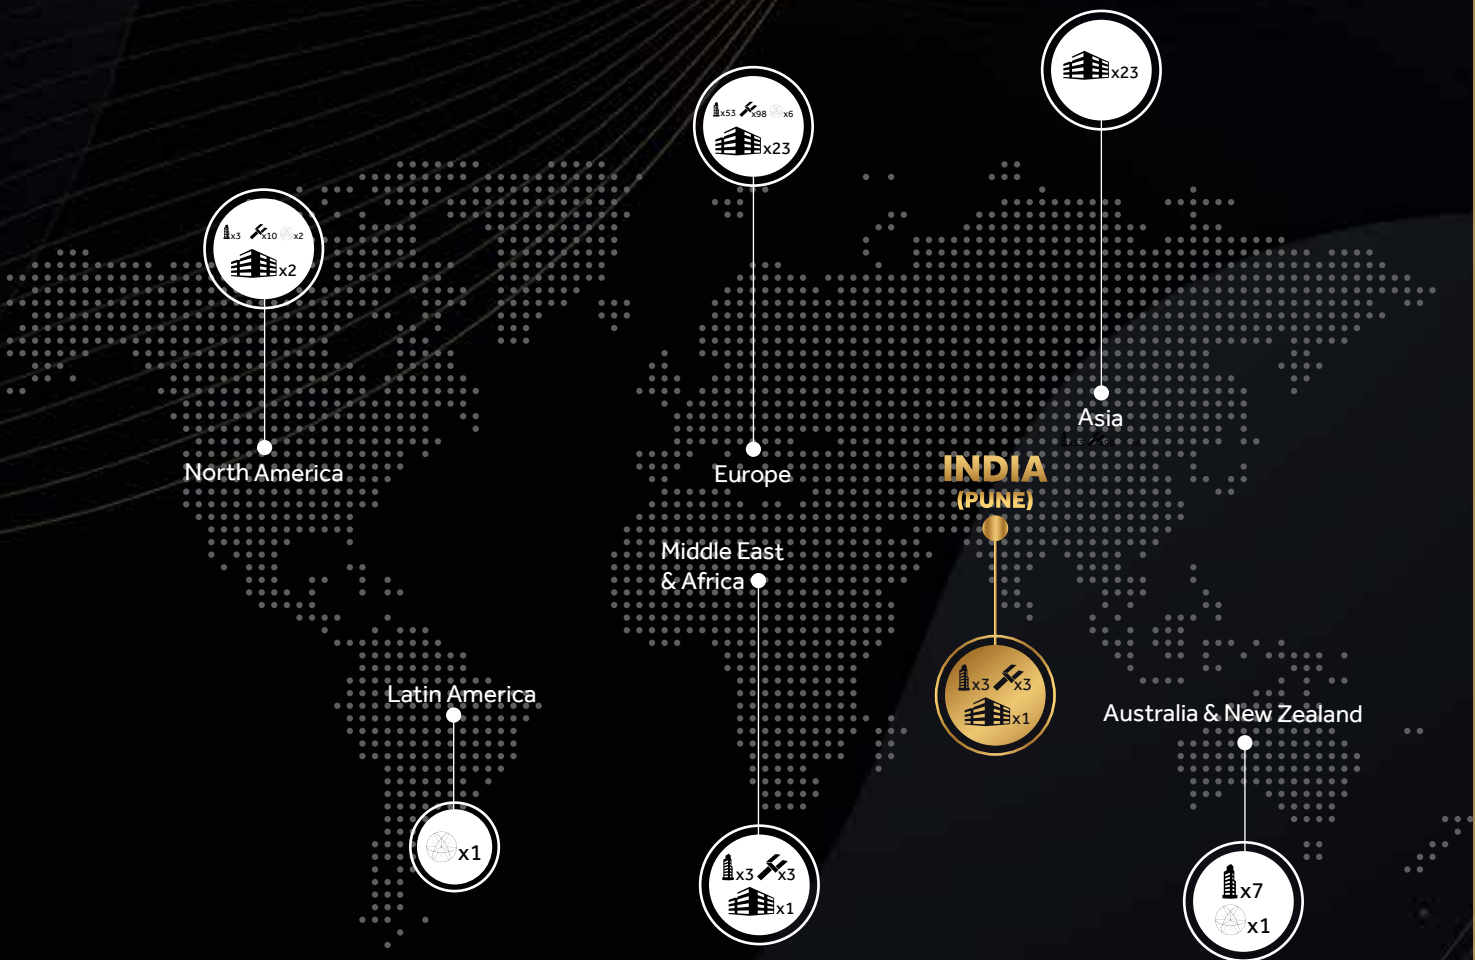

Haier Deep Freezers has been Worlds No. 1 brand for the past 14 consecutive years (As per Euromonitor International Ltd). we take great pride in our commitment to design and manufacture products that reduce energy consumption and their carbon footprints.

Over the past 18 years in India, we have achieved some outstanding results in this area. Ongoing research into new electrical engineering technologies, state-of-the-art light solutions, and relationship building with global companies, ensures we keep pace with the latest advances in environmental sustainability and energy efficiency.

The year 2022 was a milestone for our Journey in India when we established our new manufacturing unit in Ranjangaon, Pune with a production capacity of 5 Lacs units and an investment of Rs. 117 crore in a record time of only 7 months. In line with our commitment to provide energy efficient solutions to Indian market we had launched India's First 5 Star rated (As per BEE) Deep Freezers in Feb 2022.

Haier's commitment to consistently introduce India-centric innovative products that deliver on the promise of quality to its consumers is a true testament to the brand's continuing growth and success. In recent years, the company has made considerable investments to expand its extensive distribution and after-sales network across the country to better serve customers everywhere.

You can depend on us to provide your business with commercial refrigeration products that will significantly reduce your carbon footprint and energy consumption.
